

# MARIE SMITH

Software Engineer

## SUMMARY

Data-driven and detail-oriented software engineer with a deep interest in API development. Proven track record of creating and implementing successful front and back-end web applications. Looking to bring my skills to a company with a creative bent.

## WORK EXPERIENCE

### Software Engineer at 100devs | Remote

April 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied project management agile methodologies like SCRUM

#### Recent Projects:

**ConfiDance (Full Stack Web App)** <https://confidance.cyclic.app/>

Logged in users can add, edit and delete public and private journal entries, view their weekly numbers, select customized poses, and access dance/movement class VODs.

**Praise Board (Full Stack Web App)** <https://praisefolder.cyclic.app/>

Users can login to their profile and find their dashboard of praises/acknowledgments. They can add acknowledgments through an input, pin their favorites, like others' public acknowledgements, and sort or delete any in their profile.

**Other Projects:** Guilty Pleasures Cabaret Match Game, ArtSocial Public Art Generator with The Metropolitan Museum API integration, 'Best of' Quotes Board Web App, Villain Selector for Jane Austen Book Club NYC, and many more
